EDUCATION –

- **Chitkara University Himachal Pradesh** *Jul 2021 – Present*
  Bachelor of Engineering, CSE
- **Rasulpur B M High School** *Jul 2019 – Jul 2021*
  Class 12 WBCHSE state board, Science
- **Rasulpur B M High School** *Jan 2018 – mar 2019*
  Class 10 WBBSE state board

SKILLS –

- Languages: C++, JAVA, HTML, CSS, JavaScript, DSA, AWS
- Frameworks: Node JS, Express JS, React JS
- Web Tools: Vs Code, Git, Github

PROJECTS –

- **Weather App**

  - Developed a responsive weather application using React, integrating the OpenWeatherMap API to fetch and display real-time weather data.

  - Implemented dynamic UI updates, utilizing React state management to display current weather conditions including temperature, humidity, and wind speed.

  - Designed and optimized a user-friendly interface with responsive CSS, ensuring seamless functionality across desktop and mobile devices.

- **Food Delivery Website**

  - Developed a fully responsive food delivery website using React, improving accessibility across all devices.

  - Designed and implemented a dynamic navigation system and interactive elements to enhance user experience.

  - Utilized React Router for efficient client-side routing and enhanced user experience.

- **Music Player**

  - Developed a full-featured music player application using React js, Express.js, Mongoose, EJS, and Multer for file uploads and database management.

  - Implemented user authentication, playlist management, and real-time music streaming.

  - Designed and optimized the backend using Express.js and MongoDB, ensuring efficient data handling and smooth user experience.

CERTIFICATIONS –

Programming Using C++ Certification - from Infosys	Advance Front-End Web Development with React - from Coding Ninjas	Full stack development - from Coding Ninjas
